Funding Sources

* COSF monies are generated from rent collections.

FOAM does not issue separate financial statements. It is included in with the state of Arizona’s CAFR. The 2019 CAFR can be found at WWW.GAO.AZ.GOV/Financials/cafr

Total Cost of Operation

In-House vs Contracted Work

2019 Annual Report - Page 3
Deteriorating Building Conditions
- Age of buildings and equipment
- Deferred maintenance due to staffing and budget constraints
- HVAC equipment beyond its useful life (water source heat pumps, air handlers, etc.)
- Old deteriorating plumbing
- Inefficient single pane windows
- Switchgear

Challenges in Tracking Utility Costs
- Lack of accurate historical data (electrical, gas and water usage)

Accounting for total deferred preventative maintenance

Expanding Operations
- Maintaining the Arizona State Hospital facilities

Retain / Increase Skilled and Engaged Staff
- Review of trade positions to identify appropriate compensation structure
- Increase employee training
  - Backflow, AICA, etc.
- Increase employee recognition

Increase Energy Savings and Sustainability
- Retrofit to LED lighting
- Optimize Energy Management System
- Scheduled lighting and occupancy sensors
- Expand water savings program
- Additional controls

Development and Organization of the Preventative Maintenance Program
- Increase staffing to meet workload requirements
- Increase planned maintenance to reduce corrective work orders
- Add Preventative maintenance program for energy management system

Others:
- Refine Equipment Registry
- Continue to improve safety program (In FY17, the documentation process was greatly improved)
- Improve expense tracking to capture true and total costs.
- Work order efficiency
